BATH PRODUCTS

About Us

"**LORENS** Faucet, India's Fastest-growing And Modern Company, Has Positioned Self As A Leader In The Faucet Industry Since Its Launch In 2015. Recognizing The Increasing Consumer Demand In Today's Sophisticated Era, **LORENS** Stands Out By Meeting Market Needs With New Technology And Innovative Ideas.

In The Fast-paced And Modern Lifestyle Of Today, Where Stress Has Become A Prevalent Spect Of Human Life, **LORENS** Addresses This Concern With Its Stress- relieving Bathroom Fittings. Designed To Provide Relief And Promote A Stress-free Life, **LORENS** Faucets Are Crafted To Enhance Well-being.

LORENS Faucet Industries Takes Pride In Manufacturing Bathroom Faucets With A Broad Product Range And Cutting-edge Technology. Emphasizing Product Quality, Durability, And Design, **LORENS** Faucet Adheres To The Mantra Of Delivering Excellence.

Understanding That A Bathroom Is A Reflection Of One's Lifestyle, **LORENS** Mission Is To Assist Customers In Creating Their Dream Bathrooms. By Combining Style And Functionality, **LORENS** Faucet Aims To Enhance The Overall Bathroom Experience And Contribute To The Well-being Of Its Customers."

Our Making Process

CORE MAKING

Our 10 years of knowledge and expertise empower us to navigate complexities with ease, delivering results that exceed expectations every time.

CASTING

Our efficient manufacturing processes produce as per order casting daily, also maintaining high quality standards. Advanced machinery and dedicated team ensure consistent delivery.

MACHINING

In faucet manufacturing we use high-technology machines revolutionize faucet manufacturing, ensuring precision, efficiency, and superior quality through cutting, shaping, drilling, threading, and polishing.

GRINDING

Our manufacturing process utilizes high-tech grinding machines for precision and surface quality. These advanced machines achieve tight tolerances and superior finish on components.

POLISHING

Our production process prioritizes polishing for clean surfaces, using advanced machinery and manual expertise to enhance visual and tactile qualities.

ELECTRO PLEATING

Our electro pleating can full fill customer demands while maintaining high quality standards. Advanced facilities and skilled technicians ensure consistent results.

MARKING

We Use High-tech laser machines, for ensure precision, speed, and versatility in component marking, ensuring consistent, accurate

ASSEMBLY

Our assembly capacity is as per order pieces per day, can full fill customer demands, maintaining high quality standards, and delivering exceptional products competitively.
